

boys grammar

SYNOPSIS

Within the accepted patriarchal culture of a boys' grammar school, GARETH, a young teen on the verge of discovering his own identity, is cruelly brutalized by the object of his admiration, NICK.

When the sanctuary of his own home is invaded by his abuser, Gareth must decide who he is and declare it. But first he has to negotiate the expectations of his father and older brother, who are victims of the same system.

Roslyn Clayton-Vincent, Writer, February 2005
